

Naturex achieves the highest rating in BRC certification across its production sites

Avignon, 13th September 2011 – After Birmingham (UK), Avignon (France), Bischofszell and Burgdorf (Switzerland), the New Jersey industrial site is the latest factory of the group to become BRC certified.

Naturex Inc. successfully complied with the rigorous and thorough inspections of the BVQI certification body. *“Gaining this grade-A BRC certification rewards the continuous and daily efforts of our teams but it also recognizes Naturex’ guarantee to supply our clients with the highest level of quality and safety for our ingredients”* says Nicolas Souchon, Global Quality Assurance Coordinator.

The BRC Global Standards are a leading global product safety and quality certification program used by suppliers in over 100 countries. A growing number of European and North American retailers and major manufacturers require this independent certification from their suppliers.

This new BRC certification demonstrates the commitment and the global approach of Naturex to meet the highest existing quality assurance standards.

About Naturex:

Naturex manufactures natural speciality ingredients for the Food & Beverage, Nutrition & Health and Personal Care industries. Headquartered in France, Naturex employs 1000 people and has 11 production units located in Europe (France, Italy, Spain, Switzerland and England), the United States (New Jersey and California), Brazil, Australia and Morocco. In addition, the group has several sales offices worldwide.
